The plans never materialized and the land has been used primarily for cutting hay.

On motion of Mr. Owens, second by Mr. McCrady, the Board acted to follow the recommendation of the Washington County Planning Commission and approve the request of Kelly J. Mr. Phipps explained that the Project Management Team will be identifying both infrastructure and housing rehabilitation projects.

There being no further comments, Mr. Reynolds declared the public hearing closed.

6. Consideration of Approval of Interconnection of Proposed Piper Springs Estates Subdivision with Worthing Way within Worthington Place Subdivision

Mr. Phillip Hearl, Legal Counsel for The Quest Group, addressed the Board. Mr. Hearl explained that The Quest Group is asking the Board of Supervisors to approve Worthing Way as an access for the proposed Piper Spring Estates Subdivision. He addressed several of the concerns that have been voiced by the residents of Worthington Place Subdivision. Mr. Hearl explained that residents of Worthington Place Subdivision have expressed concerns about the traffic that will result from the proposed Piper Spring Estates Subdivision. The traffic is going to be dealt with in one of two ways; 1.) traffic routed onto Briarwood Lane and then “spilling” onto Worthing Way or 2.) if authorized by the County, Worthing Way would be an entrance into the proposed development. Next, he explained that concerns have been voiced over property values being decreased because of the proposed development. Mr. Hearl stated that Piper Spring Estates Subdivision would a first class development and possibly the best subdivision development in Washington County. Lots will be sold for approximately \$100,000.00. He further explained that the residents of Worthington Place Subdivision learned about the right of way on Worthing Way when they purchased their property.

Mr. Hearl made comments concerning the lawsuit that has been filed against the Board of Supervisors by Worthington Partners and Darrell Cole. He stated that Dr. Coeburn would assist the Board in any way possible with the lawsuit. If the Board should authorize the right of way on Worthing Way as an access to Piper Spring Estates Subdivision it would serve to speed up the legal process.

In closing, Mr. Hearl asked that the Board act to approve the right of way on Worthing Way as an entrance into the proposed Piper Spring Estates Subdivision.

Mr. Jim Brown representing Worthington Partners addressed the Board. He identified himself as one partner and his business, Paramount, as the other partner that comprised Worthington Partners. Mr. Brown explained that Worthington Partners made a request to be allowed to provide input concerning the request of The Quest Group to use the right of way on Worthing Way as an access into the proposed Piper Spring Estates Subdivision. He further explained that The Quest Group is now making this request to the Board without submitting a specific development plan. Mr. Brown stated that basically the Board is being asked to approve an entrance into a subdivision that has not yet been designed.

Mr. Brown presented a packet of materials to the Board. Presented in the information is a petition signed by 30 residents of Worthington Place Subdivision opposing the utilization of the right of way on Worthing Way as an access to the proposed Piper Spring Estates Subdivision. Also, included in the information is a plat that shows an alternate access to the proposed development. Mr. Brown asserted that the best access to the proposed development would be Briarwood Lane. He reviewed with the Board the other materials included in the packet of information that includes documents showing additional entrances into the proposed development.

Mr. Brown explained that as an adjoining property owner, he wants to see the adjoining property developed in the best manner possible. He further explained that he has no interest in owning the property or being in competition with The Quest Group. Mr. Brown asserted that the July 11, 2006, public hearing was out of order and that County Subdivision Agent had authority as the Board's designated agent to take the action on March 6, 2006, concerning the plat under Code Section 2265 for the reason that it differentiates between property the County bought or condemned. This property in question was neither bought nor condemned and was given to the County by Worthington Partners. He stated that Worthington Partners has filed an appeal in Circuit Court concerning the action taken by the Board on July 11, 2006 to vacate the plat signed by the County Subdivision Agent on March 6, 2006. Further, Mr. Brown explained that Worthington Partners made application to the Board for an ordinance to vacate the right of way on Worthing Way. In closing, Mr. Brown asked the Board to consider the voices of all interested parties in this matter.

At this time substantial discussion ensued among the Board. Subsequently the Board took the following action:

On motion of Mr. Price, second by Mr. McCrady, the Board acted to put the plat prepared by Worthington Partners back to the way it was on March 5, 2006, and to place the matter back into the hands of the County Subdivision Agent for a decision to be worked out between the County Administrator and the developers.

The vote on this motion was as follows: (7-0)

<i>Mr. McCall</i>	<i>Aye</i>
<i>Mr. McCrady</i>	<i>Aye</i>
<i>Mrs. Mumpower</i>	<i>Aye</i>
<i>Mr. Owens</i>	<i>Aye</i>
<i>Mr. Price</i>	<i>Aye</i>
<i>Mr. Rector</i>	<i>Aye</i>
<i>Mr. Reynolds</i>	<i>Aye</i>

At this time, Mr. David Everest, resident of Sheffield Court in Worthington Place Subdivision requested to speak to the Board. Mr. Everest advised the Board he would hire an attorney to represent him in the matters referenced above.

Other residents of Worthington Place Subdivision and Briarwood Lane were in attendance and requested to speak to the Board.

Discussion ensued among the Board concerning the request. It was consensus of the Board to direct the County Administrator to schedule a public information meeting to allow the residents of Worthington Place Subdivision and Briarwood Lane the opportunity to review the concept plan for the proposed Piper Spring Estates Subdivision and to address the Board.

After further discussions, the public information meeting was scheduled for Tuesday, August 22 beginning at 5:00 PM. Notices will be mailed to all residents of Worthington Place Subdivision and Briarwood Lane.

13. Recess

The Board took a ten-minute recess at this time.

Mr. Link took the famous photograph "Maud Bows to the Virginia Creeper" 50 years ago at the Green Cove Station. Winston Link Memorial Committee to be used to help with the cost of the granite monument to be erected at Green Cove Station to commemorate the 50th anniversary of O. 11. Consideration of Approval of Request for Proposals for Professional Services for County Office Complex Site Selection and Needs Assessment Study

County Administrator Mark Reeter addressed the Board explaining that included in the Agenda materials is a Request for Proposal (RFP) for Board consideration in seeking the professional services needed to explore a potential County Office Complex site. Mr. Reeter explained that at the April 25, 2006, regular meeting, the Board acted to create an informal committee comprised of Supervisor Odell Owens, Assistant County Administrator Christy Parker and Information Systems Manager Nadine Culberson to

study the issues involved with centrally locating County agencies and further that this Committee would make a report to the Board at the completion of their study. This group has met a number of times with the principal focus of identifying several possible sites for the location of a County government office complex envisioned to consist of multiple buildings located within a campus-style site environment. Mr. Reeter further explained that two (2) publicly owned sites and one (1) privately owned site believed large enough and appropriately located to accommodate the complex have been tentatively identified by the group. Mr. Reeter stated that it is anticipated that an additional three (3) potential sites suitable for a County Office Complex would be identified bringing the total to six (6).

Mr. Reeter reported that further substantive work in this regard would require assistance by a professional architectural/engineering services provider to undertake the items identified under Element 1 (Sites Identification and Evaluation) and Element 2 (Facilities Needs Assessment) of the RFP document. He explained that the RFP outlines the general scope of professional services needed in order to continue efforts regarding the County Government Office Complex Project. A formal presentation to the Board will be made upon completion of Elements 1 and 2 of the RFP, at which time the Board would be requested to make a final site selection from among the top three (3) sites and to decide whether to proceed with Element 3, preparation of a formal Preliminary Architectural and Engineering Report concerning the development of a County office complex on the site selected by the Board. Mr. Reeter further explained that it is recommended that the County Facilities Committee be authorized by the Board to oversee the procurement via competitive negotiation of a professional architectural/engineering services provider and to negotiate a contract for the services outlined in the draft RFP, subject to final Board approval. He further recommended that the Board may want to consider directing the Facilities Committee to invite the participation of Sheriff Fred Newman and County Treasurer Fred Parker and/or County Commissioner of the Revenue Melvin Ritchie in the procurement process as well as to provide guidance and input to the professional services provider during the course of work on Elements 1 and 2 of the RFP.

Discussion ensued among the Board. Supervisor Odell Owens explained that when he approached the Board asking them to form the study committee it was for several reasons. Mr. Owens explained that the County Government Offices are spread throughout town, which is unfair to the citizens of Washington County. Further the Sheriff, Treasurer and Commissioner of the Revenue are in need of additional room. Mr. Owens asked the Board to give the proposed County Office Complex process serious consideration.

On motion of Mr. Owens, second by Mr. McCall, the Board acted to approve the draft Request for Proposals and to authorize the County Facilities Committee to proceed with professional services procurement. It was further resolved to direct the Facilities Committee to invite participation of the Sheriff and either the County Treasurer and/or County Commissioner of the Revenue in the procurement process and to provide guidance and input to the professional services provider during the course of the work.
