Reasons for Seeking Appointment to the Board of Supervisors:

I have kept an eye on political issues both nationally & local for years. I first met Mr. Wayne Steven's years ago because of primarizing him in the republican party. We remained friends because we both understand how important our community is and shared a passion to see our community succeed & grow. Few people seem willing to serve today, but as I am a servant to God, so am I willing to serve our community. I really want to see Washington become the pinnacle of achievement for all other counties to look to.

Please feel free to attach additional information.

Good evening,

I wanted to add just a little more about myself. I enjoy writing both novels and bible studies. I also love to learn, often deep diving different topics and subjects of interest that catch my attention such as green energy, new farming techniques bible subjects.

I may lack in some areas of expertise in regards to being a supervisor but my heart for seeing the citizens of Washington County helped by adding new jobs, housing and other necessities is very important to me. I prefer knowing whats going on in the county but at an arms length away so to speak. I am friends with James Baker and Mike Rush both former board members. I have known Charlie Hargis for a number of years now.

I have worked on youtube projects interviewing Republican, Democrat and Independent hopefuls running for offices including the last sheriff's race between Andis and Carter. While I am a Christian Conservative I fully understand the duty Assigned to board members and realize that many topics can be controversial but must be met head on with patience, prayer and an understanding of procedure and legality.

I appreciate your time and consideration of me for this nomination. As much as I am willing to serve the community to the best of my ability, I will miss having Mr. Stevens on the board knowing the great job he did, despite a few minor difference of opinions.

Kind Regards,
Chad A Morrison
